As a student in the Xavier University Division of Business, my purpose is to become one of tomorrow's socially responsible business leaders and to be business intelligent, morally focused, passionate, and success-driven. I CARE about the greater good. I CARE about the consequences of my choices. I CARE about the value I contribute. I pledge to uphold the principles of Integrity, Community, Academic Honesty, Responsibility and Engagement.

Accounting majors pledge to follow the American Institute of Certified Public Accountants ethics code;

Finance majors pledge to follow the Chartered Financial Analysts Institute ethics code;

Healthcare Management majors pledge to follow the American College of Healthcare Executives ethics code.

Management majors pledge to follow the National Management Association ethics code;

Sales and Marketing majors pledge to follow the American Marketing Association ethics code;

I will support, participate in, and create community events, networks and traditions. I will strive to bring energy, initiative and enthusiasm to collaborations with my colleagues;

I will attend Division of Business meetings, Business Week activities, and participate in division sponsored events;

I will become an active member or officer in a student organization to develop my leadership skills and serve the community;

I will give proper credit to any reference or source material;

Per every 1 hour of course credit I will plan for 2-3 hours of work per week outside of the classroom setting;

I take responsibility for knowing assignment and exam expectations and deadlines as presented in a course syllabus, Brightspace®and in class;

If I work full or part-time I will budget my time accordingly for academic success;

I will participate in the academic advising process by scheduling appointments with my academic advisors on a regular basis noting that a failure to do so may delay program completion;

I recognize that full participation in team projects is vital in learning to become a valued co-worker or manager;
